

Carbon Neutrality Partnership

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation's Target / Plan / Action <i>(for Input)</i>
Overall: Decarbonisation Target		
Setting a target for total carbon emissions	<ul style="list-style-type: none"> - set a carbon neutrality target with a timeline - set carbon emissions reduction target with a timeline 	<ul style="list-style-type: none"> - Carbon Neutrality by Year 2050 - Have extra 4% reduction in carbon emission per Equi. Guest Night by Year 2025 in comparing to Year 2018 with Year 2015 as baseline - Have extra 15% reduction in carbon emission per Equi. Guest Night by Year 2035 in comparing to Year 2018 with Year 2015 as baseline
Green Economy		
Green procurement	<ul style="list-style-type: none"> - set green procurement policy and standards - procure energy efficient appliances (such as those with Grade 1 energy labels under the Mandatory Energy Efficiency Labelling Scheme) 	<ul style="list-style-type: none"> - To integrate the green procurement policy and standard with economic, environmental and social consideration into the existing procurement process in 2022 - Use Bulk bottles of Hotel Wet amenities e.g., Shampoo, Conditioner and Bath Gel - Change Hotel Dry amenities & packaging materials from Plastic to biodegradable materials - Use copying paper with FSC certified

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation's Target / Plan / Action (for Input)
		<ul style="list-style-type: none"> - Use LED Lamp - Provide free filtered Water dispenser in all guestroom floors - Installation of flow controllers on water tap in all Hotel area - Use of digital QR code for Guestroom Hotel Directory - Printed product with recycled or FSC certified paper and vegetable-based ink
Green finance	<ul style="list-style-type: none"> - utilise green financing instrument to raise fund 	<ul style="list-style-type: none"> - Conclude 4-year Green Loan for Regala Skycity Hotel in Year 2021 with an aggregated facility amount of HK3,100.0 million - Explore the opportunity on future green financing for other hotels and new projects
Net-Zero Electricity Generation		
Developing renewable energy	<ul style="list-style-type: none"> - set a renewable energy adoption target with a timeline - install renewable energy generating equipment (e.g. solar panel, solar hot water system) where possible - participate in the Feed-in Tariff Scheme - purchase Renewable Energy Certificates 	<ul style="list-style-type: none"> - Install solar panel at roof of Regal Kowloon Hotel, Regal Oriental Hotel and Regal Hongkong Hotel by Year 2025 if such installation complies with current regulation and ordinance and investment cost including premium for lease modification for height restriction are sustainable with the energy saving performance - Purchase Renewal Energy Certificates by Year 2035

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation’s Target / Plan / Action (<i>for Input</i>)
Energy Saving and Green Buildings		
Energy saving targets	<ul style="list-style-type: none"> - set electricity usage reduction target with a timeline 	<ul style="list-style-type: none"> - Improve energy performance by extra 4% per Equi. Guest Night by 2025 in comparing to Year 2018 with Year 2015 as baseline - Improve energy performance by extra 15% per Equi. Guest Night by 2035 in comparing to Year 2018 with Year 2015 as baseline
Enhancing energy efficiency performance of buildings	<ul style="list-style-type: none"> - target for green building certification (e.g. BEAM Plus) at Platinum level - conduct green building certification for all new buildings - select existing buildings for green building certification - achieve energy efficiency performance above the statutory requirements - procure energy efficient equipment and switch them off when not in use - adopt smart building technologies to reduce 	<ul style="list-style-type: none"> - Build new hotels and other projects to achieve BEAM Plus “Silver” or above - Achieve EarthCheck Certification “Platinum” & “Master” Rating for all Regal Hotels by Year 2033 and 2038 respectively - Upgrade existing BAS / BMS to iBMS to all Regal Hotels by Year 2030 - Upgrade all the motors from existing IE1 /IE2 efficiency to IE3 or above in accordance with the BEC 2021 or above requirements by Year 2030 - Upgrade all the T5 lighting fittings to LED lighting fittings with motion / daylight sensor by Year 2028

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation's Target / Plan / Action (<i>for Input</i>)
	electricity consumption and enhance energy efficiency (e.g. smart technology to enhance energy efficiency in air-conditioning system)	
Greater use of energy management tools	<ul style="list-style-type: none"> - conduct energy audit and implement identified energy management opportunities - conduct retro-commissioning 	<ul style="list-style-type: none"> - Implement RCx to 5 x Regal Hotels by Year 2030 and 6 x iclub Hotels by Year 2035 - Conduct energy-cum-carbon audit for 5 x Regal Hotels by Year 2025 and 6 x iclub Hotels by Year 2028 - Implement energy saving project in stages in all audited Regal and iclub Hotels as recommended by energy audit reports and complete by Year 2030 and Year 2033 respectively
Construction / Work sites	<ul style="list-style-type: none"> - adopt Modular Integrated Construction (MiC) as appropriate - recycle construction wastes - electrify diesel-run equipment in construction sites or other works areas adopt low carbon construction (e.g. prefabricated construction 	<ul style="list-style-type: none"> - Adopt MiC for new hotels and other projects if financially viable and environmentally sustainable - Adopt environment friendly and recyclable materials for new hotels and other projects if financially viable and environmentally sustainable - Adopt hybridization of diesel generator in construction sites of new hotels and other projects

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation's Target / Plan / Action (for Input)
	methods, low carbon construction materials)	
Development of district cooling system	- adopt high efficiency chillers	- Replace chillers system with high efficiency chillers and associated system in phases in accordance with the BEC 2021 or above requirements by Year 2030
Green Transport		
Zero carbon emissions from transport	- equip parking spaces with electric vehicle charging provision, preferably with a target and a timeline	- By the year of 2025, expected to have 52 EV charges in premises (which including 48 standard size and 4 medium size) - By 2030, 100% of car parking space will be equipped by Electric Vehicle charges
Phasing out of fuel-propelled and hybrid vehicles progressively	- electrify the corporate fleet, preferably with a target and a timeline - adopt low carbon logistics planning and delivery with technology to reduce carbon footprint	- Plan to have 80% Electric Vehicles in corporate fleet in the year of 2025 - By 2028, 100% of the hotel vehicle will be Electric Vehicle - In 2023, start putting green logistics (such as providing Electric Truck for delivery) into one of the considerations during the vendor selection period
Maintaining a public transport system with	- encourage employees to use public transport	- Starting from 2022, design an updated staff code of conduct / policy regarding parking at premises to eliminate staff parking

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation’s Target / Plan / Action (for Input)
railway as the backbone		<ul style="list-style-type: none"> - To implement the new policy in 2023 and ensure all staff comply with the new policy by the year of 2024
Waste Reduction		
Promoting waste reduction and recycling	<ul style="list-style-type: none"> - support the implementation of municipal solid waste charging (e.g. not to allow bulk-purchasing “designated garbage bags” and distributing them to tenants) - promote waste separation and recycling in commercial premises and residential estates with the set-up of centralised “recycling corners” - promote food waste recycling and participate in food waste collection programme 	<ul style="list-style-type: none"> - Implement a waste management system and analysis the waste composition in 2022 - Target to reduce and recycle 30% of waste respectively by the end of 2025 - By the year of 2026, based on the result of 2022, target to reduce and recycle 25% of waste - Study and partner with food waste organization to reduce 10% of food waste by the year of 2023 - In the year of 2025, food waste further reduces 25% comparing to 2023
Controlling the use of single-use plastics	<ul style="list-style-type: none"> - set a plan for minimising the use of single-use plastics, preferably with a target and a 	<ul style="list-style-type: none"> - Starting from 2022, we will gradually minimize the use of single-use plastic items. With the target date of completion in 2028 by - reduce the use of single-use plastic packaging and replaced by

Aspects of Decarbonisation	How Your Organisation Could Help (Examples for Reference)	Your Organisation's Target / Plan / Action (<i>for Input</i>)
	<p>timeline</p> <ul style="list-style-type: none"> - reduce the use of single-use plastic packaging - request on-site caterers and food business tenants to use reusable and durable cutleries and food containers for eat-in customers, and avoid distributing disposable plastic tableware for takeaways - install filtered water dispensers to reduce the use of plastic water bottles - offer single-use toiletries on request only - avoid the use of disposable plastic umbrella bags and install umbrella drying facilities 	<p>biodegradable material</p> <ul style="list-style-type: none"> - install filtered water dispensers in all Hotel area so as to reduce the use of plastic water bottles - replace the single-use toiletries plastic material to biodegradable material and offer to guests on request basis - install umbrella drying machines to avoid the use of disposable plastic umbrella bags in all Hotel area - encourage on-site caterers to use reusable and durable cutleries and food containers for eat-in customers - replace the disposable plastic tableware & takeaway containers to biodegradable materials.
